Care Instructions

The Gommaire Teak Protector is key in keeping your brand new teak Gommaire furniture looking beautiful for many years to come.

•Before using the Teak Protector, eye protection and rubber gloves should be worn.

•Cover the ground under your work area before starting.

Instructions for use

NEW TEAK

1.First clean with a cleaner to remove some of the natural teak oils (or weather for 2 weeks outside before treatment)

2.Before using the Teak Protector on dark grey teak, clean the teak with a teak cleaner. If cleaned teak feels rough, sand lightly before treating with Teak Protector.

3.Make sure teak is 100% dry and free of dust.

4.Shake before use. Apply a thin layer of Teak Protector with a soft cloth or paintbrush

5.Allow to dry for one hour and then apply a second thin coat of Teak Protector. Let the teak dry for 48 hours before exposure to moisture.

It is recommended that you treat your teak furniture once a year with Teak Protector. Teak tabletops should be treated more often.
