## Care Instructions

The Gommaire Teak Protector is key in keeping your brand new teak Gommaire furniture looking beautiful for many years to come.

- Before using the Teak Protector, eye protection and rubber gloves should be worn.
- Cover the ground under your work area before starting.

### Instructions for use

#### NEW TEAK

- 1.First clean with a cleaner to remove some of the natural teak oils (or weather for 2 weeks outside before treatment)
- 2.Before using the Teak Protector on dark grey teak, clean the teak with a teak cleaner. If cleaned teak feels rough, sand lightly before treating with Teak Protector.
- 3.Make sure teak is 100% dry and free of dust.
- 4.Shake before use. Apply a thin layer of Teak Protector with a soft cloth or paintbrush
- 5.Allow to dry for one hour and then apply a second thin coat of Teak Protector. Let the teak dry for 48 hours before exposure to moisture.

It is recommended that you treat your teak furniture once a year with Teak Protector. Teak tabletops should be treated more often.

**G-PROTECT**
